RE: Gravlock Beam Clamps

Dear Rick,

As we have discussed, Safway Services, Inc. has discovered that a small percentage of gravlock beam clamps that were sold to you do not meet the manufacturers or our specifications. Rather than conducting a field investigation of the clamps in question, the manufacturer has requested that the clamps be exchanged and taken out of service.

As a result, we have arranged for other acceptable beam clamps (manufactured by Boulton), to be available for this exchange. We are also prepared to work with you and your customer to facilitate the exchange process.

Should you have any questions concerning this, do not hesitate to contact me at 262-523-6564.

Best Regards,

Andy Reiland
